RATES TO INCREASE

As a result of pass through fees from the San Antonio Water System (SAWS) and the Edwards Aquifer Authority (EAA), starting with the October 15th billing cycle, the rates for water and sewer will go up. SAWS is increasing the fee they charge for treatment of sewage and EAA is increasing a pass through fee to fund initiatives related to implementation of the Habitat Conservation Plan. The following charts show some examples of the impact to your monthly bill based on water usage:
